Elizabeth

As discussed yesterday, I am supportive of the split of GPS for the reasons you have indicated.

Given that the change is at a senior management level, I think it would be best for a short paper to come to EMT General and to seek views / comments for EMT colleagues.

One initial comment I have is in relation to the title of "Land Use and Management" – I think there are aspects of land use that I would have thought fall under AEB so it is obviously important that there is clarity around the proposed remit of the Branch / role.

The next EMT General is on the 08th August; there is also an EMT meeting on the 7th August. If you can have a paper prepared in advance, happy to consider at either of those meetings

Thanks

Stanley

Stanley

As discussed yesterday please find attached VAF's for the posts we discussed. The farm post was jeds and confirmed as grade 7 last year and while I need to check with HR I am assuming a jeds is not required for the HoB posts as they are akin to current HoB posts.

Grateful if you could consider approval of the attached

Elizabeth
